

§ 300.533

34 CFR Ch. III (7–1–97 Edition)

(a) Tests and other evaluation materials—

(1) Are provided and administered in the child's native language or other mode of communication, unless it is clearly not feasible to do so;

(2) Have been validated for the specific purpose for which they are used; and

(3) Are administered by trained personnel in conformance with the instructions provided by their producer.

(b) Tests and other evaluation materials include those tailored to assess specific areas of educational need and not merely those that are designed to provide a single general intelligence quotient.

(c) Tests are selected and administered so as best to ensure that when a test is administered to a child with impaired sensory, manual, or speaking skills, the test results accurately reflect the child's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure).

(d) No single procedure is used as the sole criterion for determining an appropriate educational program for a child.

(e) The evaluation is made by a multidisciplinary team or group of persons, including at least one teacher or other specialist with knowledge in the area of suspected disability.

(f) The child is assessed in all areas related to the suspected disability, including, if appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status, and motor abilities.

(Authority: 20 U.S.C. 1412(5)(C))

NOTE: Children who have a speech or language impairment as their primary disability may not need a complete battery of assessments (e.g., psychological, physical, or adaptive behavior). However, a qualified speech-language pathologist would: (1) Evaluate each child with a speech or language impairment using procedures that are appropriate for the diagnosis and appraisal of speech and language impairments, and (2) if necessary, make referrals for additional

assessments needed to make an appropriate placement decision.

(Approved by the Office of Management and Budget under control number 1820-0030)

[57 FR 44798, Sept. 29, 1992, as amended at 58 FR 13528, Mar. 11, 1993]

§ 300.533 Placement procedures.

(a) In interpreting evaluation data and in making placement decisions, each public agency shall—

(1) Draw upon information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background, and adaptive behavior;

(2) Ensure that information obtained from all of these sources is documented and carefully considered;

(3) Ensure that the placement decision is made by a group of persons, including persons knowledgeable about the child, the meaning of the evaluation data, and the placement options; and

(4) Ensure that the placement decision is made in conformity with the LRE rules in §§ 300.550–300.554.

(b) If a determination is made that a child has a disability and needs special education and related services, an IEP must be developed for the child in accordance with §§ 300.340–300.350.

(Authority: 20 U.S.C. 1412(5)(C); 1414(a)(5))

NOTE: Paragraph (a)(1) of this section includes a list of examples of sources that may be used by a public agency in making placement decisions. The agency would not have to use all the sources in every instance. The point of the requirement is to ensure that more than one source is used in interpreting evaluation data and in making placement decisions. For example, while all of the named sources would have to be used for a child whose suspected disability is mental retardation, they would not be necessary for certain other children with disabilities, such as a child who has a severe articulation impairment as his primary disability. For such a child, the speech-language pathologist, in complying with the multiple source requirement, might use: (1) A standardized test of articulation, and (2) observation of the child's articulation behavior in conversational speech.

(Approved by the Office of Management and Budget under control number 1820-0030)

[57 FR 44798, Sept. 29, 1992, as amended at 58 FR 13528, Mar. 11, 1993]

§ 300.534 Reevaluation.

Each SEA and LEA shall ensure—

(a) That the IEP of each child with a disability is reviewed in accordance with §§ 300.340–300.350; and

(b) That an evaluation of the child, based on procedures that meet the requirements of § 300.532, is conducted every three years, or more frequently if conditions warrant, or if the child's parent or teacher requests an evaluation.

(Authority: 20 U.S.C. 1412(5)(c))

ADDITIONAL PROCEDURES FOR EVALUATING CHILDREN WITH SPECIFIC LEARNING DISABILITIES

§ 300.540 Additional team members.

In evaluating a child suspected of having a specific learning disability, in addition to the requirements of § 300.532, each public agency shall include on the multidisciplinary evaluation team—

(a)(1) The child's regular teacher; or

(2) If the child does not have a regular teacher, a regular classroom teacher qualified to teach a child of his or her age; or

(3) For a child of less than school age, an individual qualified by the SEA to teach a child of his or her age; and

(b) At least one person qualified to conduct individual diagnostic examinations of children, such as a school psychologist, speech-language pathologist, or remedial reading teacher.

(Authority: 20 U.S.C. 1411 note)

§ 300.541 Criteria for determining the existence of a specific learning disability.

(a) A team may determine that a child has a specific learning disability if—

(1) The child does not achieve commensurate with his or her age and ability levels in one or more of the areas listed in paragraph (a)(2) of this section, when provided with learning experiences appropriate for the child's age and ability levels; and

(2) The team finds that a child has a severe discrepancy between achievement and intellectual ability in one or more of the following areas—

(i) Oral expression;

(ii) Listening comprehension;

(iii) Written expression;

(iv) Basic reading skill;

(v) Reading comprehension;

(vi) Mathematics calculation; or

(vii) Mathematics reasoning.

(b) The team may not identify a child as having a specific learning disability if the severe discrepancy between ability and achievement is primarily the result of—

(1) A visual, hearing, or motor impairment;

(2) Mental retardation;

(3) Emotional disturbance; or

(4) Environmental, cultural or economic disadvantage.

(Authority: 20 U.S.C. 1411 note)

§ 300.542 Observation.

(a) At least one team member other than the child's regular teacher shall observe the child's academic performance in the regular classroom setting.

(b) In the case of a child of less than school age or out of school, a team member shall observe the child in an environment appropriate for a child of that age.

(Authority: 20 U.S.C. 1411 note)

§ 300.543 Written report.

(a) The team shall prepare a written report of the results of the evaluation.

(b) The report must include a statement of—

(1) Whether the child has a specific learning disability;

(2) The basis for making the determination;

(3) The relevant behavior noted during the observation of the child;

(4) The relationship of that behavior to the child's academic functioning;

(5) The educationally relevant medical findings, if any;

(6) Whether there is a severe discrepancy between achievement and ability that is not correctable without special education and related services; and

(7) The determination of the team concerning the effects of environmental, cultural, or economic disadvantage.

(c) Each team member shall certify in writing whether the report reflects his or her conclusion. If it does not reflect his or her conclusion, the team
